

全腦記憶班 (幼兒大腦開發課程)

透過記憶學和全腦學習力訓練，以遊戲啟導、記憶法即學即試和有趣小比賽等，讓幼兒認識腦袋操作和運用，明白到“用腦學習先做好準備，記憶是有方法的”，從而有效地儲存知識。

課程能提高幼兒的記憶力和學習能力，同時增強他們在學習上的信心和興趣。課程由經過專業認可的記憶力導師授課，並利用遊戲和小比賽等方式激發幼兒的學習興趣。

課程內容：

- ✦ 記憶基本功：視覺記憶、聽覺記憶、觸覺記憶、複述記憶法等。
- ✦ 多元記憶法：分類記憶法、故事串連法、數字掛鉤法、圖像聯想中英文生字記憶法等。
- ✦ 學習技巧：讀書方法、克服困難等技巧。
- ✦ 工作紙和筆記：每堂課提供工作紙和筆記，方便幼兒在家進行練習，同時讓家長了解學習內容。
- ✦ 評估報告：第一堂課進行簡單評估，學期結束時提供評估報告給家長了解學習進度。

Whole Brain Memory Course

Through the principles of memory and whole-brain learning, this course aims to help young children understand how their brains work and how to effectively store knowledge. Using game-based activities, memory techniques, and fun competitions, children will learn that "preparation is key for learning, and there are methods to enhance memory."

This course is designed to improve children's memory and learning abilities while boosting their confidence and interest in learning. Taught by a professional and accredited memory trainer, the course utilizes games and small competitions to stimulate children's interest in learning.

Course content:

- ✦ Basic memory skills: Visual memory, auditory memory, tactile memory, recapitulation method, etc.
- ✦ Multiple memory techniques: Classification method, story linking method, number pegging method, visual association for English and Chinese vocabulary, etc.
- ✦ Learning strategies: Study methods, overcoming challenges, and more.
- ✦ Worksheets and note-taking: Worksheets and note-taking materials are provided for each class, allowing children to practice at home and enabling parents to understand the learning content.
- ✦ Assessment reports: A simple assessment will be conducted in the first class, and assessment reports will be provided to parents at the end of the semester to track the child's learning progress.
